

Yealink Audio Conference Phones

EASY CONFERENCING, CLEAR COMMUNICATION

Premium Audio Experience for All

Yealink Conference Phones are designed to make remote meetings productive, so you will not have to go through the agony of low-quality sound and annoying distractions. Equipped with full-duplex and HD audio quality, the phones capture and deliver conversation in full sound.

Better yet, Yealink has developed its Noise Proof Technology to eliminate possible background noise and provides noise-free services even in a busy environment. The phones automatically mute the microphone when no human voice is detected, and intelligently reduce background noise to a minimum when you are speaking.

Selecting the Right Phone

Yealink CP960

- » Enterprise-grade device for medium- to large-sized meetings
- » Android-based
